Migrating from Legacy Symantec/Blue Coat appliances to Zscaler cloud-native platform has never been easier

We know transitioning from legacy Symantec/Blue Coat seems like an overwhelming task. With all the person-hours spent deploying web gateway appliances, building and maintaining overblown network-centric security policies, and dealing with on-going connectivity issues seems like a never-ending cycle. With the world rapidly moving towards digital transformation, there is even more pressure to find the right replacement.

Don't worry. We are here to help. It's never been easier to migrate to Zscaler, the Industry's leader in the **Gartner Secure Web Gateway Magic Quadrant** for ten consecutive years, and now, for the first time in this category, recognized as the only leader.

Zscaler's unique cloud-native proxy platform eliminates the need for appliances. With simple configuration, you can direct all traffic (including SSL) to the Industry's largest in-line cloud security stack that performs single-pass inspection, provides full visibility, and delivers in-depth, intelligent protections to every user regardless of location or network. With the network now irrelevant, you can:

Build context-based security policies without worrying about the underlying network

Gain full visibility by inspecting SSL traffic without limits

Stop threats with true in-line, always-on protection sourced by 175B daily transactions

We know that migration is a painstaking process, with every organization requiring a customized approach. With this in mind, we have crafted an exclusive offer that will expedite this process and smoothly transition you from legacy Symantec [Blue Coat] to Zscaler.

Jumpstart your migration journey with:

Extended Trial: Experience superior protection with an extended trial license for Zscaler's Internet Access (ZIA) transformation bundle that includes:

✓ Advanced Cloud Sandbox

✓ Advanced Cloud Firewall

✓ Advanced Threat Protection

✓ Data Protection

✓ Cloud Browser Isolation

✓ Full SSL inspection

✓ And more…

Complimentary Assessment: Plan your migration with confidence as our professional services policy migration experts deliver:

✓ In-depth Policy and Configuration Assessment

✓ 2-pager Policy Migration Assessment Report
